

IRRIGATION SERVICE – IS-24

Billing Code: 030

AVAILABILITY. Cooperative Service Area

APPLICABILITY. This rate is applicable to all Members of the Cooperative for sprinkler irrigation service, pump irrigation service and reuse pumps, subject to the Cooperative’s established Rules and Regulations.

TYPE OF SERVICE. Single-phase or three-phase, 60 cycles, alternating current at available secondary voltages. Single phase service may be furnished at the discretion of the cooperative where three phase-service is not available. Not more than one (1) irrigation connection shall be made on any single-phase extension.

RATE.

Annual Horsepower:	\$	42.50 per HP per year
Energy Charge:	\$	0.107040 per kWh

MINIMUM MONTHLY BILL. The minimum annual charge under the above rate shall be the higher of the following:

Horsepower Charge. Forty-two dollars and fifty cents (\$42.50) per horsepower except that, for motors of less than ten (10) horsepower, it shall be four-hundred twenty-five dollars (\$425.00). No energy shall be allowed for the horsepower charge.

Any applicable billing adjustments (such as ECA, etc.) or payment plans; and

Any applicable taxes, franchise, regulatory assessment, service fees, etc.

DETERMINATION OF HORSEPOWER. The horsepower for billing purposes shall be determined, as necessary, by a demand meter or other test each irrigation season and shall be the horsepower input to the motor. However, the billing horsepower shall not be less than any billing horsepower established during the preceding eleven (11) months.

If the member changes or modifies their irrigation system in such a manner as to permanently reduce the metered billing horsepower by ten (10) percent or greater, an adjustment to the billing horsepower will be made to reflect the modified billing horsepower. If the changes or modifications occur prior to July 1, the billing horsepower adjustment will be made in that year. Changes or modifications made after July 1 will result in no change to billing horsepower, however, adjustment will be made to billing horsepower in the following year.

If actual installed or metered horsepower is less than 10 horsepower, the horsepower used for billing purposes shall be ten (10) horsepower.

POWER FACTOR ADJUSTMENT. Consumer agrees to maintain unity power factor as nearly as practicable. The horsepower for billing purposes may be adjusted to correct for average power factors of less than eighty percent (80%). Such adjustments will be made by increasing the horsepower one percent (1%) for each one percent (1%) by which the average power factor is less than eighty percent (80%) lagging.

TERMS AND CONDITIONS. The annual minimum charge will be billed in March of each year. In cases where connections have not been made by that date, the minimum will be due upon connection. Monthly energy charges shall be billed each month during the irrigation season. Terms of monthly payment shall not exceed six (6) months and will otherwise be in accordance with the Rules and Regulations of the Cooperative as they currently exist or may be amended from time to time.
