Operations Report December 2022

Maintenance

Refused transformers and side taps.

Worked locate tickets system wide.

Fixed lights in Scott Park, Alexander, Ness City, and McCracken.

Removed trailer house from line south of Healy.

Changed out bad breakers at True North Ranch.

Measured line clearances on Hwy 83 north of Scott City.

Changed out bad arrester at Allan Knott's south of Ness City.

Tightened connects in double throw box at the Alexander substation.

Worked with Sunflower to change the oil in the tap changer in the Ness City 115 sub.

Gathered OCR and fuse sizes in the Dighton city substations for arc flash study.

Changed out auto transformers on the Hartman 3 phase.

Moved transformers and meter loops to different camping spots in Scott Park.

Changed out bad meter loop at Doll's feedlot.

Fixed crossarms and phase floaters on the Hagans 3 phase.

Fixed burn down and phase floater south of Ness City.

Retired connects for Rex Whipple, Blain Vogel, and Palomino oil.

Monthly sub checks.

In house safety meeting.

Changed out bad meters and worked on collectors.

Pole Change Outs

Change out bad single-phase poles south of Ness City and in the Mendenhall pasture. Changed out bad 3 phase poles in McCracken and Ness City.

New Connects

Built 1 span of new 3 phase and built new connects in 2 locations for Brookover Feeders. Built new single phase connect for Stewart Well Service Morrison lease.

Other

Worked CPR's and material sheets for November.

Applied for and updated KDOT right of way permits.

Worked on arcing trailer.

Built tire rack/ loft in the east end of the truck barn.

Cleaned and repaired trucks.

INFORMATION TECHNOLOGY REPORT

IT/COMPLIANCE PROJECTS **COMPLETED** AS OF DECEMBER 2022

- 1. Endpoint Central license renewal upgrade from on premise to cloud.
- 2. Troubleshooting employee software and device issues.
- 3. US Payment KIOSK monthly backend server patching and software upgrade.
- 4. AppSuite 1.95 version updates.
- 5. AppSuite MapView TPK imagery and data file monthly update.

IT/COMPLIANCE PROJECTS IN PROGRESS AS OF DECEMBER 2022

- 1. iVue Mosaic chart and report programming.
- 2. Work Management Operation Suite project scheduled to begin January 2023.
- 3. Mobile Radio Services meeting to gather information on router communication network and equipment requirements. Researching tower connectivity options with both Internet Service Providers.

CYBERSECURITY COMPLIANCE REPORT

CYBERSECURITY/IT PROJECTS **COMPLETED** AS OF DECEMBER 2022

- 1. Domain Hyper-V server securities and programming review.
- 2. KEC, Bill Glyn Cybersecurity meeting.
- 3. NRECA Cyber Protection of Industrial Control Systems Webinar.
- 4. KnowBe4 training.

CYBERSECURITY/IT PROJECTS IN PROGRESS AS OF DECEMBER 2022

- 1. Veeam backup server programming and training scheduled for January.
- 2. Dighton office SonicWall firewall replacement and programming scheduled for January.
- 3. Establishing primary domain server with a secondary backup server setup. Establishing device backup diversity, redundancy and robust security for file share migration, network segmentation, device authentication, and user authentication. Business continuity resiliency during a disaster for backup of data recovery, access, and mobility.
- 4. Establishing a secondary GIS server to accomplish the same cybersecurity measurements as the domain server.
- 5. Veeam backup full management upgrade. Establishing backup diversity using multiple backup incremental timeframes. Building data redundancy with file encryption, immutable storage for airgap protection, and server replication. Business continuity resiliency to decrease disaster recovery time, protects against Ransomware, data quality, and data mobility. Provides third-party support.
- 6. Cyber Defense Firewall full management upgrade. Establishing device protection diversity with a primary and secondary firewall. Redundancy and robust security bundle for network and data protection. Business continuity resiliency during a disaster to provide high availability and protects against unauthorized alteration. Provides thirdparty support.
- 7. Federated Cybersecurity wire fraud procedures.
- 8. Cyber Patch full management upgrade.

IDENTIFY, ACCESS, AND MITIAGE RISK

- 1. Third part threat factor notifications reviewed to determine if firewall or email securities need added, updated, or checked on or if company awareness email should be sent.
- 2. Office 365 email threat management daily review and risk mitigation.
- 5. Manage Engine Endpoint Central patch management daily review and risk mitigation.
- 6. Cyber Detect Rapid 7 asset vulnerability management and risk mitigation.
- 7. Cyber Detect Insight end user vulnerability management and risk mitigation.
- 8. Cyber Detect Nexpose network vulnerability scan.
- 9. ASP iVue server monthly patching and updates.
- 10. US Payment KIOSK monthly backend server patching and software upgrade.
- 11. Operations and domain server backups, disk cleaner, and alert warning daily review.
- 12. Applications and windows updates and patching.

Sent: Wednesday, January 4, 2023 7:29 AM

To: Richard McLeon **Subject:** Engineering update

Follow Up Flag: Follow up Flag Status: Flagged

The end of another year brings paperwork and preparations for the next. We have delivered all data requested to PSE for the ArcFlash study and to KDEM on the December 2021 windstorm DR. We are very close to getting the data completed and delivered for the March 2022 blizzard DR. I will have that completed in January. Connect and extension pricing, outage data, line added/retired are being updated along with spreadsheets, logs, and files for the upcoming year. We have also received the rejected pole data for November and Decembers testing. I am spotting those structures and verifying structure data from previous months that have not been completed yet.

Thanks

Nate Burns

Engineering Coordinator Lane-Scott Electric (620) 397-5327 O (620) 397-8063 C (best)

January Board Meeting – Member Service Report

- 1. \$200 Utica Fire Donation for Approval. The donation is for their Christmas event they had, to help with supplies and gifts. This was not included in my 2022 or 2023 donation budget.
- 2. Christmas Light Float in the Dighton parade during Downtown Christmas. Ness City did not have a parade this year.
- 3. Continuing Education Scholarship Application Period began the first of January and will end April 3, 2023. We are providing eight \$1,500 scholarships.
- 4. CoBank Sharing Success Grant applications are also being accepted with a deadline of April 3.
- 5. Spent a lot of time continuing work on Estate Capital Credit Retirement process and G&T Estate Retirements.
- 6. The Generac advertising we did in the fall must have helped. Scott said they have had a lot of calls for generators. He wants to hold-off on advertising for a little while.
- 7. Normal monthly KCL, social media posts, website updates, new member e-mail series, newsletter e-blast, chamber communications, sponsorship/donation requests, communication plan updates, spending report, advertising.

Subject: Congratulations on Becoming a 5-Star Co-op!

Ann,

From the entire Co-ops Vote team, we'd like to congratulate you on becoming a 5-Star Co-op for the 2021-2022 election cycle! Your official thank you will be on its way soon; in the meantime, we wanted to give you the 5-Star Co-op Web Sticker to add to your social media pages and your website!

Adding the image to your website is as easy as copying and pasting the code below into your webpage's HTML.

5 Star Co-op Graphic:

<div style="width: auto; float: right; margin: 5px; max-width: 200px;"></div>

If you have any problems adding the image to your homepage, don't hesitate to reach out to us at CoopsVote@nreca.coop.

Thank you again for your leadership and for supporting Co-ops Vote!

Sincerely, The Co-ops Vote Team

From: NRECA <no-reply@wufoo.com>

December Warehouse Report

Total Inventory Dollars on Hand for December:

Line Material--\$298,683 Inventory Turns—0.942

Resale Material--\$244,624 Inventory Turns—1.721

Line Material dollar amount is up due to pole shipments.

Generac Update:

We finished installing all the Generac generators that had been on order for quite a while. This will take us into the new year with us waiting on an additional 4 more to ship in to be installed. We have sent several quotes and are waiting to see if the customers want to go ahead and purchase a system. Another aspect of the Generac generators that we are seeing growth in is the service side. We have added several new customers to our service plan. I have included a chart that shows the growth in Generac sales over three years.

Inventory to be Billed/Future Margins:

4 Generac generators: \$45,000 average gross/\$10,000 average net margin

12,000' Duct: \$30,500 gross/\$10,000 net margin

Electrician Update:

LCF is still an ongoing project and will be for some time. We will be bringing on a licensed electric contractor to work with Michael and Kalo on other larger projects in the new year. This should enable us to get caught up on our job list and improve our response time to new calls.

HVAC Update:

Mark installed two new furnaces and a new PTAC unit in the month of December. Service calls have remained steady, especially through the cold spell. We received 12 calls on just one day for furnace work. November margins weren't good, but around \$3,500 of the loss was equipment received but not yet billed. That equipment was billed in December. Mark also continues to service Generac generators and go out on troubleshooting calls for them.

Line Material:

We still have 2 loads of poles yet to ship; lead times remain 8-16 weeks for a load of poles. Transformers still remain hard to get. We were guaranteed production for delivery in December but found out that those transformers will not be made until May of 2023. As of now, transformers remain our biggest challenge to get.
